

# Hé, e.e.c.mm.ngs

Pour chœur d'hommes et de garçons  
(S.A.T. B.)

*Les unissons, les quarts peuvent faire penser à une musique médiévale.  
Mais non. On l'entend dès les premières notes : ce n'est pas du plein-chant ;  
ce n'est pas un organum. C'est seulement une musique qui veut faire Un avec  
la simplicité du poème.*

*Die Unisonos, die Quarten lassen einen an mittelalterliche Musik denken.  
Aber nein. Sie hören es von den ersten Tönen an: es ist kein vollständiges Lied;  
es ist kein Organum. Es ist nur eine Musik, mit der man eins sein will die  
Schlichtheit des Gedichts.*

Durée : 5'20" ca.
